## saxon Mini Dobsonian with Accessory Pack

AUD  
\$129.00

### Product Images

### Short Description

For those wanting a compact and portable telescope, look no further than the **saxon 76/300 Mini Dobsonian Telescope with Accessory Pack**.

This tabletop telescope is small in size but packs a punch with its 76mm aperture and focal length of 300mm. The upgraded accessory pack means you get four eyepieces, a moon filter, a finderscope and a carry bag to put the whole lot in.

The pre-assembled **saxon Mini Dobsonian Telescope with Accessory Pack** means you can simply remove the scope from the box as soon as you get it, attach an eyepiece and start viewing immediately!

## Description

---

We love it when a scope is compact, portable and looks good at home or at work, which is why we sure love the **saxon 76/300 Mini Dobsonian Telescope with Accessory Pack**.

The **saxon Mini Dobsonian Telescope with Accessory Pack** is an upgraded version of its sister product, with the same great features plus a little extra. This tabletop telescope is a good introductory scope for lunar and wide field observing. The high aperture of 76mm provides bright, sharp views of the night sky and the accompanying accessories allow you to make the best out of your viewing session.

The additional Super 1.25" eyepieces provide the option to change your magnification and field of view while the 5x24 finderscope is used to align your telescope. Use the moon filter to cut down the intensity of brighter planets and the Moon and increase the contrast of these objects. Whenever you decide to move to a different viewing site, all you need to do is pack your telescope and accessories into the carry bag and off you go!

When the telescope is not in use, show off its sleek black design as a display feature in your home or office.

The **saxon Mini Dobsonian Telescope with Accessory Pack** features the following:

- 76mm aperture
- 300mm focal length
- Four eyepieces including two Super eyepieces
- 5x24 finderscope and bracket
- Moon filter
- Preassembled alt-azimuth mount
- Carry bag
