Short Description

Encourage young scientists to explore the world around them with the **saxon SBM ScienceSmart Biological Microscope**.

This microscope features a built-in light and has three powerful magnification settings, making it a great addition to any home laboratory.

Powered by a choice of batteries or AC power, this portable microscope is suitable to use both indoors and outdoors.

Description

The saxon SBM ScienceSmart Biological Microscope features 40x, 100x, 400x magnification, bottom light illumination and a monocular head. The microscope head is rotatable at 360 degrees and the 45 degree incline eyepieces provides optimum viewing for ergonomic purposes.

In addition to AC Power, this biological microscope can be easily powered with AA batteries, turning it to a portable microscope that you can carry and switch on anywhere, without needing a power outlet.

The saxon SBM ScienceSmart is easy to use and a great introduction to young scientists, beginners, high school teachers and students.
