## 35mm Orion Deep View Eyepiece

**AUD**  
**\$177.00**

### Product Images

## Short Description

---

- This 35mm focal length 2" telescope eyepiece offers bright, sharp and pleasing images of deep-space objects
- 3-element eyepiece lens design with multi-coatings for efficient light transmission
- Eyepiece eye relief is a long 20mm, ensuring comfortable views for eyeglass wearers and all astronomers
- Delightfully free of pincushion distortion and chromatic aberration
- Threaded for use with 2" Orion eyepiece filters

## Description

---

Assuming that you don't subscribe to the misconception that strong magnification gives better views of deep-sky objects, then our Orion DeepView 35mm 2" Telescope Eyepiece should excite you. Why? Because the brightest and sharpest images of deep-space objects are obtained with low power and a wide field of view, and DeepView 2" eyepieces deliver just that.

DeepView telescope eyepieces feature anodized aluminum housings and a 3-element lens design with multi-coatings for efficient light transmission. Eye relief of each DeepView telescope eyepiece is a long 20mm - a welcome spec for eyeglass wearers - and the rubber eyeguards fold down out of the way if desired. The 35mm DeepView eyepiece features a generous 56-degree apparent field of view. Delightfully free of pincushion distortion and chromatic aberration, DeepView 2" telescope eyepieces will impress even the seasoned deep-sky observer. The barrels are threaded to accept 2" eyepiece filters.

Specifications	• Design Proprietary
	• Eyepiece focal length 35.0mm
	• Barrel size 2"
	• Apparent field of view 56.0°
	• Eye relief 20.0mm
	• Coatings Multi-coated
	• Number of elements 3
	• Filter threads Yes
	• Parfocal No
	• Field stop diameter 37.0mm
	• Barrel security recess Yes
	• Blackened lens edges Yes
	• Rubber eyeguards No
	• Body material Aluminum
	• Case No
	• Weight (oz.) 12
	• Dimensions 3.8 in. x 2.2 in.
	• Warranty One Year
