## 6 Inch or 8 Inch Dobsonian/Newtonian Essentials Kit

**AUD**  
**\$135.00**

### Product Images

### Short Description

Save on these must-have accessories for your Newtonian or Dobsonian telescope.

Includes:

## Description

---

All Newtonian and Dobsonian telescopes need to have their mirrors checked and realigned occasionally. The easiest way is to use a a laser collimator. The [Saxon 1.25 inch Laser Collimator with 2 inch Adapter](#) makes collimating your reflector telescope easy, and you can use it in the dark too.

To protect your scope optics from dust in storage we recommend the [Pegasus Dust Cover For 6 to 8 Inch Dobsonian](#) for the bottom primary cell of your scope and the top secondary cell.
