Short Description

Compact 80mm objective with dielectric coated prism for higher contrast and resolution.

POWERFUL MAGNIFICATION WITHOUT THE BULK

Featuring an 80mm objective lens with 20-60x magnification, the Bushnell Engage DX 20-60x80 Spotting Scope offers excellent image clarity in a lightweight 3.75-pound package. A durable aluminum chassis with rubber armor is designed to stand up to the toughest outdoor environments, letting you bring this hunting scope on any expedition with confidence. A conveniently angled eyepiece and rotating tripod collar ensure you can always find a comfortable viewing position.

DIELECTRIC-COATED BAK-4 PRISM FOR HIGH CONTRAST AND RESOLUTION

Featuring fully multi-coated optics and a dielectric-coated prism, this spot scope draws in an incredible amount of light to deliver crisp and vibrant imagery. Whether approaching deer from a distance or checking the target at the range, these premium optics excel even in low-light situations, allowing users to see more clearly than possible with the naked eye. Integrated Picatinny rails let you add accessories like a flashlight, laser sight, or red dot to enhance the capabilities of your spotting scope.

EXO BARRIER COATING KEEPS YOUR VISION CLEAR

Designed to withstand the elements and keep your field of vision clear, this compact hunting scope features an EXO Barrier coating that is molecularly bonded to the glass lens to repel water, oil, fog, dirt, and debris. On bright days, the built-in sunshade blocks the effect of stray light to minimize glare and enhance visibility.

- **ENHANCED DUSK/DAWN PERFORMANCE** Fully Multi coated optics provide a brighter and clearer image at dusk and dawn when you need to see the most.
- **BALANCE OF POWER AND SIZE** Large power and objective are balanced in this easy to carry and maneuver scope.
- **RUGGED CONSTRUCTION** A durable aluminum chassis and rubber armor create a strong body that protects the optical system for a lifetime of use in the harshest environments.
- **EXO BARRIER PROTECTION** EXO Barrier bonds to exterior lens surfaces, and repels water, oil, fog, dust and debris making sure you can see your target in any condition.
- **PICATINNY ACCESSORY RAILS** Locate targets quickly by adding a red dot to the built-in Picatinny accessory rails.

Additional Information

Specifications	Item ID (SKU)	SENDX2680A
	Product Name	20-60x80 Engage DX
	Close Focus (m)	7.6m
	Color	Black
	Exit Pupil (mm)	1.2mm
	Eye Relief (in.)	.7
	Eyecups	Twist Up
	FOV High Power (m @ 1000 m)	16.7m
	Length (in.)	15.4in
	Lens Coating	Fully Multi-coated
	Magnification x Objective Lens	20-60x 80mm
	PC-3 Phase Coating	No
	Prism Glass	BaK-4
	Prism Type	Porro
	Reticle	N/A
	Water Resistant	Yes, IPX7
	Waterproof/Fogproof	Yes, IPX7
	Weight (g)	1710 Grams
	ED Prime	No
