Bushnell Equinox Z2 Night Vision 6x50 Monocular

AUD
\$699.00

Product Images

Short Description

The Equinox Z2 6 x 50 Monocular is a new member to the Bushnell night vision line.

The Equinox Z2 6 x 50 offers outstanding optical clarity, ultimate illumination and a wide field of view, turning night into day with

built-in infrared illuminators and advanced light-gathering technology.

Description

The new 6x50 Equinox Z2 Night Digital Vision Monocular from the Bushnell stable uses an infrared (IR)-sensitive CMOS sensor and a micro LCD screen, instead of a conventional intensifier tube, for its night vision capabilities.

With its built-in IR illuminator the Z2 provides an effective night vision range of up to 100 metres (300 yards in old speak) and has the ability to record video at 1080p HD resolution.

This amazing Z2 also has the ability to upload images and videos quickly to a smartphone, tablet, or computer using Wi-Fi and a free app.

A military inspired side rail enables accessories, like second illuminator, to be attached directly to the monocular.

The screen even has the ability to display color images during the day and black and white when the night vision is on for greater clarity and contrast.

Enhancing the optical 6x magnification is a digital zoom to provide up to 18x magnification. A USB port and an RCA video-out port allow an external monitor or recording device to be attached to view and/or record your live feed.

Optical Performance

- 6x optical magnification
- Digital zoom to 18x
- 50mm objective lens
- Fully multi-coated optics increase light transmission and decrease glare
- 223' field of view at 1000 yards

Digital Night Vision

- IR-sensitive CMOS sensor
- Built-in IR illuminator with adjustable intensity
- Maximum viewing range 300 yards
- Digital image displayed on a micro-LCD screen
- Display shows color images during day, and switches to black and white at night for greater contrast
- Three adjustable image brightness levels accommodate different lighting conditions

Use and Handling

- Auto-off after 10 minutes if no buttons have been pressed
- Display icons show digital zoom, IR setting, battery level, and image brightness setting
- IPX4-rated, water resistant
- Built-in side Picatinny rail to attach accessories like IR illuminators
- 1/4"-20 tripod mount
- Records 1080p video
- Uploads images and video quickly to smartphone, tablet, or computer via Wi-Fi with free app
- USB and RCA video outputs
