Short Description

Bushnell Forge 10 x 42 Binoculars - The premium Bushnell binocular.

***Managers Recommendation for best binocular under \$1000**

Forge 8 x 42 and Forge 10 x 42

Phils Review : "Like its sister 8 x 42 Forges, these 10 x 42 Forges are the best binoculars under \$1000 I have seen. The crispness and colour observed combined with the quality of finish and optical glass quality is outstanding and is very strong against more expensive brands."

Description

The 10X42 in the Forge binocular defines clarity.

With low light performance that rivals even the most respected optics brands, this binocular features ED Prime glass, PC3 phase and dielectric coated BaK 4 prisms, Ultrawide Band anti-reflective coatings, and Bushnell's exclusive EXO Barrier technology. With a quality double bridge design and waterproof construction, this binocular is designed for use in extreme conditions and yields extreme results.

Exclusive EXO Barrier Protection - Bushnell's newest and best protective lens coating molecularly bonds to the glass, repelling water, oil, dust, debris and preventing scratches.

- ED Prime Glass (Extra Low Dispersion) - Bushnell's highest quality glass delivers amazing color, resolution and contrast, even in low-light conditions.
- Exclusive EXO Barrier Protection - Bushnell's newest and best protective lens coating molecularly bonds to the glass, repelling water, oil, dust, debris and preventing scratches.
- PC-3 Phase Coating - Applied to the prisms that enhances resolution and contrast.
- IPX7 Waterproof construction - O-ring sealed optics stay dry inside, when immersed in three feet of water for up to 30 minutes.
- Dielectric Prism Coating - Applied to the prisms, it ensures vivid color reproduction and allows 92% light transmission for bright images.
