Bushnell Fusion X 10x42 Rangefinding Binoculars

AUD
\$1,299.00

Product Images

Short Description

Superb ranging accuracy and advanced optics combine to make the best of both worlds in Bushnell's Fusion X 10X42mm Ranging Binocular. Our HDOS—High-Definition Optical System—provides optimum viewing clarity, while the one-of-a-kind ActivSync™ Display means you'll never again have trouble reading the ranging readout. Together, they make the Fusion X the one tool every

hunter needs.

Description

The all-new Bushnell Fusion X 10x42 Rangefinding Binoculars are a two-in-one solution for observing and ranging. A binocular that provides great viewing from before sunrise to after sunset is a critical piece of gear for any hunter. Today's hunters also want a rangefinder that delivers an accurate readout to support a successful shot. What they don't get are both those things in one tool—until now. Bushnell's Fusion X boasts superb ranging accuracy and advanced optics for the best of both worlds in one unit. Our HDOS—High-Definition Optical System—provides optimum viewing clarity, and you never have to worry about the rangefinder falling short because this unit delivers detailed readings for distances up to a full mile. Built to take the hard knocks field use deals out, this full-size 10X42 design supports a rock-steady hold and great magnification but without being too bulky and heavy. The Fusion X won't so much blink when the weather gets rough and your view won't be compromised thanks to its IPX7 waterproofing and Exo-Barrier lens coatings. Whether it's meat for the table or a chance at the buck or bull of a lifetime, the Fusion X will be there when you need it most.
