Bushnell Powerview 2 10x25mm Roof Binoculars

AUD \$49.00

Product Images

Short Description

Rugged and versatile, Bushnell Powerview 2 Binoculars combine a tough design with modern styling, allowing them to excel in both indoor and outdoor applications.

The lightweight aluminum-alloy chassis and rubber armor are durably constructed for rigorous use.

Description

The all-metal chassis ensures ruggedness and durability in the harshest elements, meaning the chassis won't crack in the extreme cold of winter, or disform in the intense heat of summer. The new metal body also eliminates uneven weight distribution often found in binoculars with plastic chassis. Multi-coated optics bring in a large amount of light, providing vibrant images for a crisp, clear viewing experience. Updated ergonomics and a rich textured rubber armor guarantee you'll always have a firm grip, even in one hand.

The PowerView 2 binoculars can also be used with other Bushnell products, including our binocular harness. LONG LASTING DURABILITY Aluminum alloy chassis provides durability without adding unnecessary weight and bulk.
