Short Description

Made of Corrosion Resistant Stainless Steel

Description

Button Head Cap Screws and Socket Head Cap Screws are a great replacement for the standard factory screws on scope set ups. 1/4" is the most common thread size used on astronomy gear.

Screw Size: 1/4 inch 20 Threads per Inch (UNC)

These threads are commonly used for:

- Dovetail Bars
- Tube Rings
- Cameras
- Some Tripods

And many other accessories.
