Celestron 34 Inch (86cm) Telescope and Tripod Bag

AUD
\$389.00

Product Images

Short Description

- The ideal storage and transport solution for a wide range of tripods and their accessory trays with internal straps for a secure fit.
- Ultra-durable 900 denier outer and super smooth inner polyester layers, sandwich 16mm thick EPE foam sheets to create a protective barrier for your telescope, tripod and mount.
- Store accessories in the external pocket or clip them to the case's external loops.
- Padded shoulder strap allows you to carry your tripod to your observing site hands-free.

Description

Still carrying your bulky tripod box to remote observing sites? Let us lighten your load with our sleek, protective, padded tripod carrying case, the perfect storage solution for transporting your gear anywhere with ease and confidence. It's truly a must-have for tripod owners of all stripes.

Ultra-durable Material

The Tripod Soft Case is constructed from 900 denier polyester for durability and weather resistance. Its walls are lined with 16mm thick EPE foam to protect your gear. The bottom panel is reinforced with a hard layer of PVC for extra protection from minor bumps.

Unzip the case and you'll discover a soft polyester interior lining with adjustable straps to hold your tripod firmly in place.

In addition, the case features an external zippered pocket to hold eyepieces and other accessories. Lastly, you'll find sewn-on fabric loops on the outside of the case. Use these to clip even more accessories to the exterior of the case.

Grab and Go

Transport your case one of two ways: via the pair of sewn in handles or optional, clip in padded shoulder strap for hands-free carrying.

Compatible Celestron Tripods

This tripod soft case can hold tripods under 34" long, including the tripods in these Celestron telescope kits.

Both Tripod and Mount Fit in this Case:

AstroMaster Telescope Line

PowerSeeker Telescope Line

Inspire Telescope Line

Cometron 114AZ
