Celestron Lens Cleaning Kit

AUD \$29.00

Product Images

Short Description

Wipe away dust, dirt, fingerprints and other particles on your lenses to see clearly with the Celestron Lens Cleaning Kit.

Description

Wipe away dust, dirt, fingerprints and other particles on your lenses to see clearly with the Celestron Lens Cleaning Kit. This

cleaning kit works on all glass and optical surfaces, including telescopes, binoculars, spotting scopes, monoculars, microscopes, and even your camera lenses, computer screens, and mobile devices. The kit comes complete with a retractable lens brush to remove dust particles and dirt and two options to clean smudges and fingerprints off of your optics, pre-moistened lens wipes and a bottled lens cleaning fluid with soft cloth. NOTE: The lens cleaning fluid, cloth, and wipes can be used on corrector lens of Schmidt-Cassegrain telescopes. These items should NOT be used on the primary or secondary mirrors of telescopes. The durable carrying pouch is divided into three sections to keep all the items organized and close at hand. The Lens Cleaning Kit can go wherever you do with the convenient belt loop. It also fits perfectly in your pocket or a small bag. Add it to your adventure kit today and enjoy better views!
