Short Description

Explore Scientific Waterproof Eyepieces - Comfort, Quality, Value

Description

The 2" diameter 32mm Explore Scientific 62° Series eyepieces are excellent flat-field multi-element oculars that can transform your visual astronomy experience. With an apparent field of view of 62 degrees and near parfocal design, these eyepieces offer incredible value in a very nice eyepiece.

Another great benefit of these eyepieces is the excellent contrast and ease with which you can gaze, not directly at an object, but slightly to either side. This skill, called using averted vision, is especially helpful when observing faint objects, because using averted vision puts the image on a part of your eye that is more sensitive to light, allowing you to see fainter images.

NOTE: This eyepiece is 2" diameter.

Additional Information

Specifications	Item Number	EPWP6232LE-01
	Focal Length	32mm
	Length	101mm
	Width	58.5mm
	Weight	14.8oz / 419.57g
	Barrel Size	2.00"
	Eye Relief	22.2mm
	Field Stop Diameter	33.6mm
