\$369.00

Product Images

Short Description

With its durable and lightweight magnesium body, the GOVIEW® ZOOMR™ 8x26 is designed specifically for your outdoor and travel adventures where brilliant image quality is essential. With its zoom factor, you can get up close to the most incredible subjects at 8x magnification. But with its large field of view, you won't lose sight of your subject even when you're on the move.

Description

Your compact travel companion

With its durable and lightweight magnesium body, the GOVIEW® ZOOMR™ 8x26 is designed specifically for your outdoor and travel adventures where brilliant image quality is essential. With its zoom factor, you can get up close to the most incredible subjects at 8x magnification. But with its large field of view, you won't lose sight of your subject even when you're on the move.

And to make sure your GOVIEW® ZOOMR™ 8x26 always catches the eye, you can choose from five fashionable colors.

Discover the unique details of your world with style and innovation

Inspired by the demands of professionals, GOVIEW® ZOOMR™ binoculars and monoculars come with a sleek design and many technical refinements for use in nature, travel, sport or everyday life.

To offer you a new optical experience, the GOVIEW® ZOOMR™ series combines many years of technological know-how with a modern and colorful design language, under which many high-quality details are hidden: the binoculars and monoculars are protected against water and fogging by a nitrogen filling and are particularly compact, durable and robust thanks to their magnesium or glass-fiber reinforced plastic housing, without weighing too much.

The complete optics are optimized for maximum field of view and all lenses are multi-coated. In addition, the innovative design ensures maximum ergonomics, so you have a firm grip on your binoculars on all adventures; and if you don't have a free hand, the high-quality carrying strap ensures you always have them at hand.

If you wear glasses, you can easily adjust the GOVIEW® ZOOMR™ series binoculars and monoculars to your needs with the extendable eyecups; you can also, of course, adjust your eyesight with the aluminum diopter adjustment. In addition, each pair of binoculars and monoculars comes with a wide range of accessories: a high-quality carrying case, protective caps, a cleaning cloth, our PORTR™ carrying strap and the universal CLOSR™ smartphone adapter for sharing your impressions online.

Now it's your turn, discover the world of GOVIEW® products and experience your life with different eyes.
