

Leupold BX-2 Alpine HD 10x42 Roof Shadow Grey Binoculars

AUD
\$579.00

Product Images

Short Description

Many consider the 10x binocular to be the sweet spot when it comes to glassing. It offers enough magnification for clear identification in wide-open spaces, and enough field of view for tight areas, all while remaining compact enough to take everywhere.

Description

Many consider the 10x binocular to be the sweet spot when it comes to glassing. It offers enough magnification for clear identification in wide-open spaces, and enough field of view for tight areas, all while remaining compact enough to take everywhere. Whether it's your first binocular or your 50th, your glass needs to give you a bright image, feel comfortable in your hands, and be able to take a beating. Now available with high-definition performance, the BX®-2 Alpine® HD binocular checks all of these boxes and more. Built around Leupold's Advanced Optical System, it offers tried and true light transmission for extended glassing sessions, best in class glare reduction in harsh light, and the resolution and clarity that recreational sportsmen and sportswomen demand. It comes with Pro Gear® accessories, too: including a GO Afield™ binocular harness, lens covers, and lens cloth. And like all Leupold® binoculars, it's fogproof, waterproof, and guaranteed to perform for life.
