Short Description

Leupold SX-4 Pro Guide 20-60 x 85 HD Angled Spotting Scope

Description

Built to take on the toughest conditions, the SX™-4 Pro Guide® HD 20-60x85mm angled spotting scope is the go to kit for the serious hunter or shooter who's looking for a High Definition performance.

This scope is constructed of an incredibly rugged magnesium body that is 100% waterproof and 100% fogproof. Couple this with an oversized eyepiece and you get all-day comfort.

Featuring Leupold's unique Elite Optical System, This beautiful scope offers top shelf early morning and early evening low light views with exceptional light transmission when it matters most.

It is this resolution and clarity that serious hunters and shooters demand. The angled, rotatable eyepiece provides various viewing options which allows users to glass the hills in complete comfort.

Whether you're going on your first big game hunt or helping repeat clients tag out year after year, this spotter should be in your kit.
