Meade AudioStar Controller

AUD
\$360.00

Product Images

Short Description

Compatible with the following mounts -

LX65, LX80, LX85, LX90, ETX-90, ETX-125, LXD-75 LT, DS 2000, DSM, LT and StarNavigator mounts.

Description

The latest Audiostar handset replaces all previous original Autostar handsets that are designated as #494, #495 and #497.

The Meade AudioStar features audio files and an internal speaker. Sound can be activated or muted.

Once aligned with the sky the AudioStar is ready to take you to any object in the over 30,000 object database. In addition to GOTO and tracking capability the AudioStar permits a wide array of fascinating and educational functions such as multiple Guided Tours, digital positional readouts, the ability to link with a PC using optionally available software and cord, and much more.

NOTE: The AudioStar handset is compatible with the LX65, LX80, LX85, LX90, ETX-90, ETX-125, LXD-75, DS 2000, DSM, LT and StarNavigator mounts only.

The Audiostar is not compatible with any other Meade mount.
