Orion Binocular Mount Adapter for Paragon-Plus Mount

AUD \$69.00

Product Images

Short Description

- Aluminum plate securely couples the built-in 1/4"-20 post found on many larger astronomy binoculars to the Orion Paragon-Plus Binocular Mount
- Required to pair the Orion Paragon-Plus Parallelogram Mount to the following binoculars: Orion Resolux 10.5x70 and 15x70, Orion 20x80 Astronomical Binoculars, or any other binocular with a built in tripod support post
- Avoid the shakes that accompany handheld viewing with big astronomy binoculars
- Using a specialized binocular mount and this adapter lets you enjoy your big binoculars for hours on end without arm fatigue
- Provides 1/4"-20 attachment of binoculars to mount

Description

This specially designed aluminum plate is required for coupling the built-in 1/4"-20 post found on many large-aperture astronomy binoculars to the Orion Paragon-Plus Binocular Mount. Using a specialized binocular mount and this adapter lets you enjoy your big binoculars for hours on end without arm fatigue.

This handy adapter is required to pair the Orion Paragon-Plus Parallelogram Mount to the following binoculars: Orion Resolux 10.5x70 and 15x70, Orion 20x80 Astronomical Binoculars, or any other binocular with a built in tripod support post.
