Orion Large Binocular Tripod L Adapter

AUD \$49.00

Product Images

Short Description

- Essential accessory for coupling large astronomical binoculars to a field tripod for visual use
- Viewing through heavy astronomy binoculars can be difficult and tiresome -- this adapter lets you attach your binoculars to a tripod so you, and your arms, can enjoy long viewing sessions in comfort
- Holding high-magnification binoculars in your hands can cause your views to be shaky -- coupling a high-power binocular to a tripod provides a stable and steady platform
- Captive 1/4"-20 bolt threads into tripod adapter receptacle feature found in the bridge of most binoculars
- Made of aluminum

Description

This Orion Large Binocular Tripod L-Adapter allows you to securely couple a pair of binoculars to tripod head. The L-adapter

features a large plastic knob for threading the captive 1/4"-20 bolt into the threaded bridge socket of any binocular equipped with a tripod receptacle. Ideal for attaching heavier astronomy binoculars to a tripod for extended viewing sessions.

Warranty

Limited Warranty against defects in materials or workmanship for one year from date of purchase. This warranty is for the benefit of the original retail purchaser only. For complete warranty details contact us.
