Orion Resolux 10.5x70 Waterproof Astronomy Binoculars

AUD
\$739.00

Product Images

Short Description

- These rugged 10.5-power Orion Resolux astronomical binoculars provide high-resolution views with a nice flat-field
- Fully waterproof and nitrogen purged construction prevents lens fogging in damp conditions
- High-quality BAK-4 prisms and advanced multi-coatings on all optical surfaces provide maximum light throughput for bright views rich in contrast
- Orion's 10.5x70 Resolux binoculars are still hand holdable for short viewing sessions, and have a nice 5.0-deg field of view
- Attachment to a tripod with the included tripod adapter is recommended for extended use. Tripod sold separately.

Description

Orion gets requests all the time from serious amateur astronomers asking what binocular we'd recommend for wide-field stargazing. Well, from now on our answer will be "Resolux"! They're our favorite astronomy binoculars (and equally superb for long-distance daytime viewing), combining high-resolution, flat-field optics with mechanical construction that meets the U.S. military spec for ruggedness and the strict JTII spec for collimation. They are fully waterproof, and nitrogen purged to prevent internal lens fogging. And all this for a very reasonable price.

With this Resolux 10.5x70 binocular, you'll enjoy performance that you simply won't find in other binoculars. Your first scan of the Milky Way will prove it - pinpoint stars set in bold contrast against the dark background. Gorgeous! The extra-large BAK-4 prisms and advanced multi-coatings on all optical surfaces really drink in the light. The eyepieces focus individually, which yields a sturdier mechanical design than a center-focus mechanism. And with 23mm of eye relief, even eyeglass wearers will see the full field of view. Supple rubber eyecups can fold down, if desired, for more comfortable use while wearing eyeglasses.

This Resolux 10.5x70 binocular's all-metal housing is armored with thick rubber to ensure a secure, comfortable grip. Each binocular comes with lens caps, heavy-duty tripod adapter, and neck strap. This binocular comes with a foam-lined hard case.

Warranty

Limited Warranty against defects in materials or workmanship for two years from date of purchase. This warranty is for the benefit of the original retail purchaser only.

Warning

Please note this product was not designed or intended by the manufacturer for use by a child 12 years of age or younger.

Additional Information

Specifications

Best for viewing
Brighter deep sky

Magnification
10x

Optical diameter
70mm

Field of view - angular
5.0°

Field of view - linear
262.5 ft./1000 yd

Apparent field of view
69.9°

Eye relief
23.0mm

Exit pupil
6.7mm

Near focus
50 ft.

Coatings
Fully multi-coated

Prism
BAK-4 Porro

Interpupillary distance range
56mm - 74mm

Focus style
Individual eyepiece focus

Waterproof
Yes

Tripod adaptable
Yes

Diopter adjustment
Yes

Weight
5.5 lbs.

Height
11.0 in.

Warranty
Two Year
