- Inspired by the damp seashore environs, but ideal for use anywhere, ShoreViews are a great value!

## Description

---

Orion loves roof-prism binoculars because of their streamlined portability. But what really sold us on ShoreView binoculars was their 100% waterproof performance and high-end features, all for a price that is lower than an ebbing spring tide at full Moon.

Great for birdwatching or looking for whale spouts at the seashore, or for all-around use inland for that matter, Orion ShoreView binoculars feature large 42mm multi-coated objective lenses and high-grade BAK-4 roof prisms for vivid views. The optics are set in a shock-resistant polycarbonate housing that's rubber armored for durability and a sure grip. It is nitrogen purged and sealed to be completely waterproof, so no worries about rain or high humidity in the forecast. Orion ShoreViews can weather it. Twist-lock eyeguards and a smooth central focusing wheel add to the ease of use. Another sweet feature: captive objective lens caps that can never get lost.

The 8x42 ShoreView binocular has a 6.8° field of view and long 18mm eye relief. Includes soft case and wide nylon neck strap.

Life's a beach. Experience it up close with an all-weather Orion ShoreView binocular.
