

## Saxon 80/400 AZ3 Refractor Telescope

**AUD  
\$429.00**

### Product Images

## Short Description

---

If space is the question, then your answer is none other than the **saxon 804AZ3 Pioneer Refractor Telescope**.

This short-tube refractor telescope has wide field views, thanks to its achromatic objective lens of 80mm and focal length of 400mm. The Alt-Azimuth mount makes it easy to adjust and focus on your land and sky objects.

The **saxon 804AZ3 Pioneer Refractor Telescope** ticks all the boxes on portability, cost and storage and makes a perfect addition to your home or office.

## Description

---

The **saxon 804AZ3 Pioneer Refractor Telescope** makes viewing land and sky objects a cinch with its short optical tube and portability.

This set up is an ideal for terrestrial viewing with a correct image diagonal.

You'll also benefit from the scope's achromatic objective lens which promises crystal-clear images with minimal chromatic aberration. The Alt-Azimuth mount means you can turn your scope left to right and up and down, making adjustments to view sweeping landscapes and night skies easy.

The **saxon 804AZ3 Pioneer Refractor Telescope** features the following:

- 80mm multi-coated achromatic objective lens
- 400mm focal length
- 1.25" Super eyepieces
- 6x30 finderscope
- Alt-Azimuth AZ3 mount
- Aluminium tripod with accessory tray
- Photography is possible via an optional T-2 adapter ring.

Perfect for use by observers of all levels.
