Short Description

Take in amazing views of land and sky with the **saxon 909AZ3 Refractor Telescope**.

This telescope uses a multi-coated achromatic objective lens of 90mm and a focal length of 910mm to create high-resolution views. Combined with the scope's rack-and-pinion system, you'll easily be able to bring your images smoothly into focus.

Description

The **saxon 909AZ3 Refractor Telescope** is suitable for both land and sky viewing.

Get great views of the night sky with the telescope's aperture of 90mm and focal length of 910mm. With a little practice, you'll soon see Moon's craters, Jupiter's moons, bright nebulae and star clusters. When you're not observing the night sky, use the scope to observe nature and scenery out at land or sea.

The **saxon 909AZ3 Refractor Telescope** features the following:

- 90mm aperture
- 910mm focal length
- Multi-coated achromatic objective lens
- Super eyepieces
- 45 degree erecting prism, excellent for terrestrial viewing
- 6x30 finderscope for easy location of objects
- Pre-assembled tripod for convenient and quick assembly
- Smooth rack-and-pinion 1.25" focuser
- 65% more light gathering power than 70mm telescopes
- M42 thread on focuser barrel compatible with T-rings for SLR cameras

Ideal for beginner astronomers and observers.
