Sirius Optics Colour Filter No. 25 Red 1.25 Inch

AUD \$19.00

Product Images

Short Description

--

Description

#25 Red - The **red filter** blocks blue and green light nearly in total, which means you get a very strong contrast, for instance, between bluish toned structures and the brighter details on Jupiter's and Saturne's clouded surface. However, this **filter** is mainly used to observe Martian polar caps.
