## Description

---

Engineered from the ground up with astroimaging in mind, the new Advanced VX series from Celestron sets a new standard in mid-level telescopes. Advanced VX provides you with many of the features found on Celestron's most sophisticated German equatorial mounts, at an extremely affordable price.

The new Advanced VX mount was specifically designed to provide optimum imaging performance for smaller telescopes. Now your smaller telescope can take advantage of All-Star Polar Alignment and autoguider support. You'll be able to track through long exposures using permanently programmable periodic error correction. Image across the meridian without doing a meridian flip, so you can seamlessly image the best part of night sky. Advanced VX features significantly larger base castings than our previous design, improving stability under heavier loads. Improved motors offer more torque and can handle slight load imbalances with ease.

Experienced imagers will love taking this portable mount to a dark sky site, with all the performance of their larger observatory mount. Or, if you're new to imaging, this mount will help you get started with the hobby and keep up with your needs for years to come.

View the magnificent skies with the **SkyWatcher 130/650 Dual Focus Photo Reflector OTA**, an extraordinary f/5 reflector telescope designed for visual use or astrophotography. The 130/650 OTA features a 130mm aperture with diffraction-limited optics for high light gathering power. Equipped with a 2" Crayford 10:1 dual speed focuser, the OTA offers precise focus adjustment to reach its optimum level. The 130/650 telescope OTA comes with a 3 element, 28mm LET eyepiece for 23x magnification, 56° apparent field of view and 20mm eye relief.

### SkyWatcher 130/650 Dual Focus Photo Reflector OTA Features:

- Ideal for Both Beginners and Seasoned Astronomers
- f/5 Reflector for Astrophotography
- 650mm Focal Length
- Dual Speed 10:1 Ratio
- Lightweight and Portable for Its Size
- Tripod Not Included
- 5 Years SkyWatcher Limited Warranty

### In the Box:

- SkyWatcher Black Diamond 130/650 Photo Reflector OTA
- 28mm LET Eyepiece
- 8x50 Finder Scope
- 130mm Tube Rings
- Dovetail Bar
