## Short Description

---

The Maksutov Signature Series is the new generation of professional quality Maksutovs from Sky-Watcher

## Description

---

The Maksutov Signature Series is the new generation of professional quality Maksutovs from Sky-Watcher. These telescopes are manufactured to the highest levels of optical and mechanical precision, resulting in exquisite optical performance and finish. Even the most critical observer will be delighted and surprised by the performance of the Sky-Watcher Signature Series Maksutov telescopes. In many applications the sharpness and image quality of these telescopes matches and exceeds that of the classic Schmidt-Cassegrain design.

NOTE: an 8 inch dewshiled is recommended for this scope.
