Sky-Watcher EvoFrame Rotational Adapter

AUD \$29.00

Product Images

Short Description

Enables the rotation of the camera around the optical axis Orientation is fixed with three clamping screws Select the right camera orientation without losing focus Fits Evostar ED 80/100/120/150

Description

SkyWatcher EvoFrame Rotational Adapter Select the right camera orientation without losing focus on your telescope. The SkyWatcher EvoFrame Rotational Adapter attach the extension tube of the Evostar ED 80/100/120/150 Apochromatic OTAs with the 0.85x Reducer Corrector. You can now rotate the camera 360° with the corrector to optimally position the object on the camera sensor. The desired position is reliably fixed with three knurled screws.
