Sky-Watcher Focus Motor

AUD
\$129.00

Product Images

Short Description

Dual speed focus motor for Crayford focusers, and rack and pinion focusers.

When you are trying to adjust the focus of the telescope, it will unavoidably cause some vibration on the telescope and might be very hard to find proper focus, especially when you are using a high magnification telescope.

- Hands-free Auto Focusing Device
- Minimizes hand vibration
- Dual speed push-button operation

Description
