

Sky-Watcher Star Adventurer Equatorial Wedge White

**AUD
\$119.00**

Product Images

Short Description

The user friendly Sky-Watcher Star Adventurer provides various combinations to satisfy all your needs for astro-photography and time lapse photography. It is a high precision, portable and stable celestial tracking platform for Sidereal, Solar and Lunar tracking with automatic DSLR shutter release control. Moreover, it contains pre-programmed parameters assisting you to create interesting time-lapse videos with your DSLR. Sky-Watcher shutter release cables can be purchased separately for most popular camera models/brands.

Description

This wedge is a part of the Star Adventurer Kit.

The equatorial wedge is equipped with fine adjustment knobs in both azimuth and latitude axes for easily centring the celestial pole without moving the tripod.
