Short Description

The traditional form of observation. The Habicht binoculars are the classic optical system that has been tried and tested and continually developed for generations. Their light-alloy housing and extremely sturdy yet lightweight design make them particularly suitable for taking on excursions.

Description

Habicht 10x40 W GA

As a conventional, lightweight pair of binoculars, the Habicht model offers impressive technical specifications. Even the use of the Porro design reflected the desire for greater detail recognition, which is provided with the 10x magnification. The rubber armoring is the number one choice for everyday use.

Included

Bag, eyepiece cover, carrying strap leather
