### LCSP lift carrying strap pro

The lift carrying strap pro can be quickly adjusted to any length. Keep the strap short for optimum wear while walking or lengthen to ensure plenty of comfort and freedom to move when resting. If desired, the lift carrying strap pro can also be worn diagonally over one shoulder - a popular choice especially for those on safaris.

**NOTE: Suitable for all new FieldPro package range binoculars including the NL Pure, EL, and Companion.**

The FieldPro package range of binoculars have the two round click in/out strap attachments on the binocular body which is different to the standard LCS strap attachments on the early EL, Pocket and SLC range binoculars.
