Short Description

Swarovski AX Visio 10X32 Binocular

Description

- The world's first "Smart Binoculars"
- Identify bird and animal species
- Quickly guide others to locate what you're viewing
- Capture stills and videos
- Share your discoveries with other members of your group or more widely on social media
- SWAROVISION quality optics

The AX Visio 10×32 is an AI-supported binocular and combines outstanding SWAROVISION quality with digital intelligence. The identification function helps you to identify birds and other animal species at the touch of a button. Thanks to the revolutionary "share discoveries" function, you can immediately show your companion where you have seen an animal. Easily create photos or videos and share them with your community. The experience is complete with the accompanying SWAROVSKI OPTIK outdoor app: customize your AX Visio to suit your individual needs.

AX Visio: The first smart binoculars The AX Visio is the perfect symbiosis of digital intelligence and high-performance sport optics. The high-precision binoculars with SWAROVISION technology deliver razor-sharp images with excellent colour fidelity.

Identify Thanks to the integrated identification support, the AX Visio helps you to find out the name of the bird or other animal species you are observing.

Share discoveries Would you like to show your observation to the person next to you? Simply mark the animal or object you have observed with the "Share discoveries" function activated, pass the AX VISIO on and the AX Visio will show them where your

discovery is by means of red arrow markings on the display.

Orientation The handy compass function with integrated tilt angle helps you to orient yourself.

Photos and videos Take photos or videos of your discoveries with the AX VISIO. You can then manage and share your files in the SWAROVSKI OPTIK Outdoor App.

SWAROVSKI OPTIK Outdoor App With the SWAROVSKI OPTIK Outdoor App, you can easily connect your AX Visio to your smartphone. Manage and share your images and videos, get more information about your discoveries, and manage settings and updates for your AX Visio.

SWAROVISION quality Thanks to the proven SWAROVISION technology, the AX Visio also impresses as analog binoculars with unsurpassed image sharpness and maximum colour fidelity.
