Swarovski Optik STX Eyepiece Module

AUD
\$3,550.00

Product Images

Short Description

Many people prefer the straight view of the STX eyepiece module because it allows them to observe and find moving targets, such as animals, more easily. It is also well suited to digiscoping and use in a car or stand.

THROUGH COMPLETELY NEW EYES

Taking functionality to a new level: the STX spotting scope system combines exceptionally flexible modularity with optical perfection. The objective lens can be changed to suit any viewing situation. Extreme detail recognition at crucial moments thanks to SWAROVISION technology and total ease of use ensure fascinating experiences in the great outdoors.

Note: Requires Swarovski Objective Module

Additional Information

Specifications	Technical Data
