Short Description

Tube rings for 114mm reflector telescope

Description

If you're looking to mount or reposition your 114mm reflector telescope, you will need these saxon tube rings.

Made from cast-aluminium, these set of two tube rings comes with quick-release, hinged clamp knobs as well as the necessary bolts and washers to make setting up an easier job.

The inner diameter of this tube rings is 140mm.

This pair of tube rings will suit the following saxon 114mm reflector telescopes:

- saxon 1149EQ Reflector Telescope
- saxon 1149EQ Reflector Telescope with Motor Drive
- saxon 1149EQ Reflector Telescope with Motor Drive System
- saxon 1149EQ2 Reflector Telescope
- saxon 1141EQ Reflector Telescope
- saxon 1141EQ Reflector Telescope with Motor Drive
