

## Tube Rings for 150mm Newtonian

**AUD \$79.00**

### Product Images

### Short Description

If you're looking to mount or reposition your 150mm reflector telescope, you will need these saxon tube rings.

## Description

---

Made from cast-aluminium, these set of two tube rings comes with quick-release, hinged clamp knobs as well as the necessary bolts and washers to make setting up an easier job.

This pair of tube rings will suit any 150mm (6 Inch) Newtonian/Dobsonian Telescope Tube.
