WW Astro dew heater 20 cm for for large 2 inch eyepiece or finderscope

AUD \$45.00

Product Images

Short Description

Heated dew strap for eyepiece.

NOTE: Sirius Optics recommends that any dew heater strap or heated dew shield be connected to a dual channel dew controller and not directly to 12V.

This allows the user to regulate the current and temperature of the dew heater strap or dew shield.

The recommended control unit is the Astrozap Dual Channel Dew Controller (Product No. 124474)

Description

WW Astro 20cm dew heater strap designed for a 2" eyepiece or lens. Works with 12V power supply and produces 4W of power. Comes with 2m silicone cable. Made with simple design, but good quality materials and finishing. Its main advantage is its low power consumption. It is compatible with popular controllers. Easily wrapped and held in place with a stretch velcro tab. RCA connection

Note: OTA size is estimated. Please check your OTA circumference before buying.
