Short Description

Dovetail groove designed for ASIAIR PRO

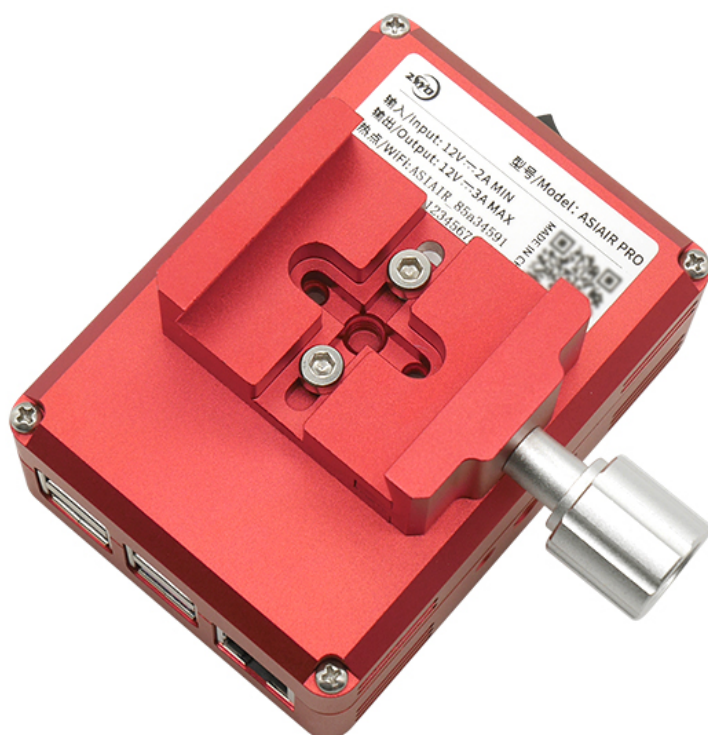

Dovetail Groove for ASIAIR PRO

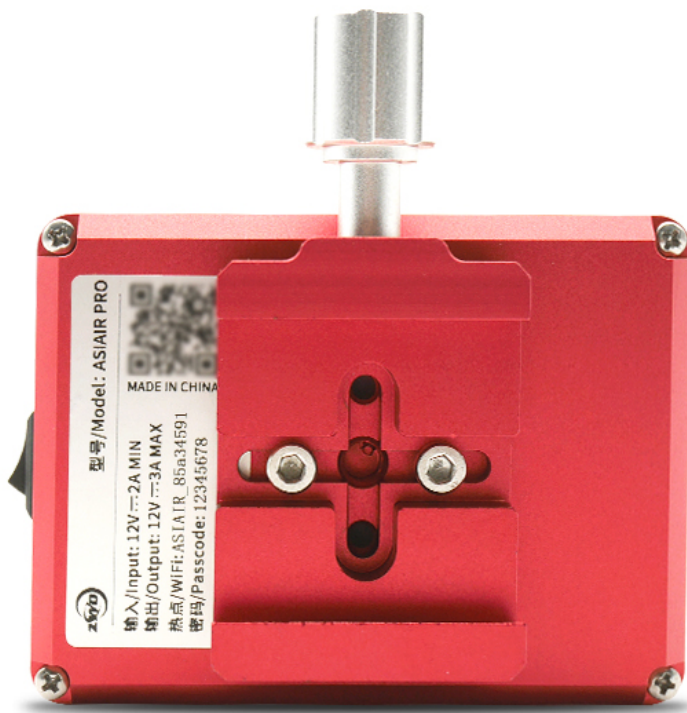

The dovetail groove is designed for ASIAIR PRO to connect Vixen dovetail plate. It can help achieve more convenient and flexible installation methods compared to the original dovetail plate of ASIAIR PRO.

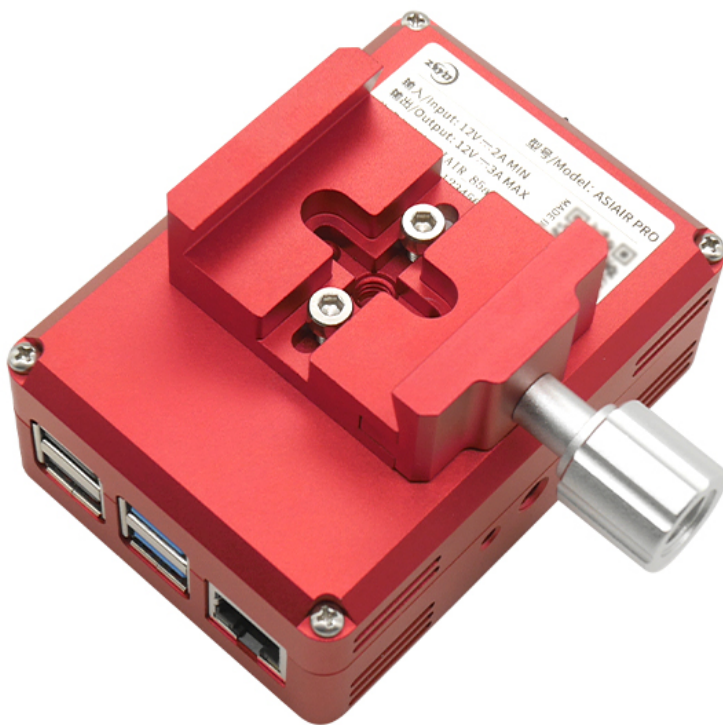

How to connect it to your ASIAIR PRO:

Connection tips:

1. Remove the original dovetail plate of ASI AIR PRO.
2. Fix the dovetail groove to ASI AIR PRO with the screws taken off from the plate.
3. It's recommended to put the bolt towards the box side as shown in the pictures above and not to block the USB ports and status indicators.
