Short Description

New filter Drawer for EOS Lens

Description

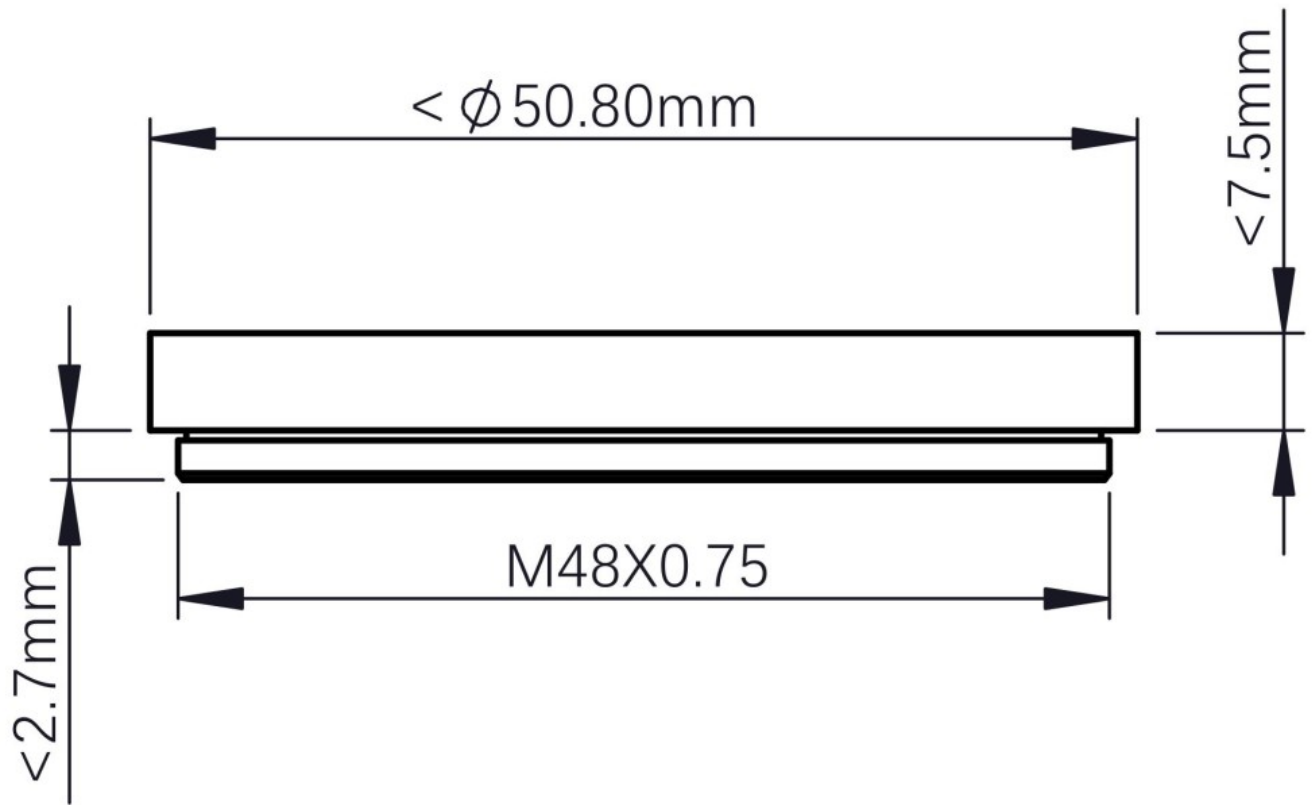

Product Description

The New filter Drawer for EOS Lens, **26.5mm thickness** is independently designed by ZWO and specifically made to match with ASI cooled cameras and EOS lens. You can freely use the **2" mounted filter** with it.

1. It's compatible with all ASI cameras with 17.5mm back focus length (except ASI GT series).
2. It's compatible with all ZWO 2" filters, including the duo-band filter, narrowband filter, IR-cut filter, etc.

Below requirements must be met while using the 2" filter from third-party.

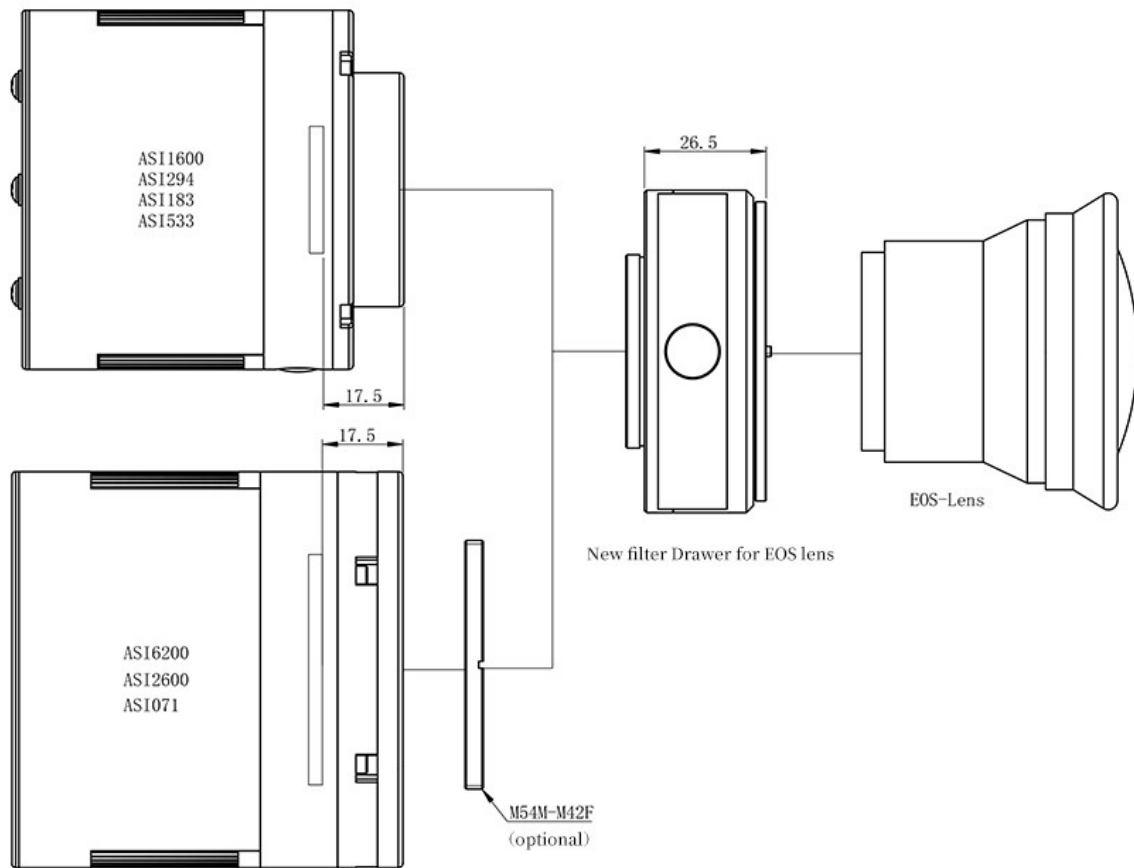

3. With the ability of double strong magnetic adsorption, it is more convenient and much easier to install or pull out the filter.

4. The thread of the interface is M42*0.75. You can also use the M54M-M42F adapter to connect the filter drawer to a full-frame camera.

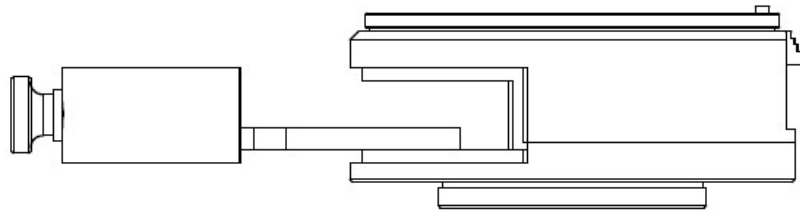

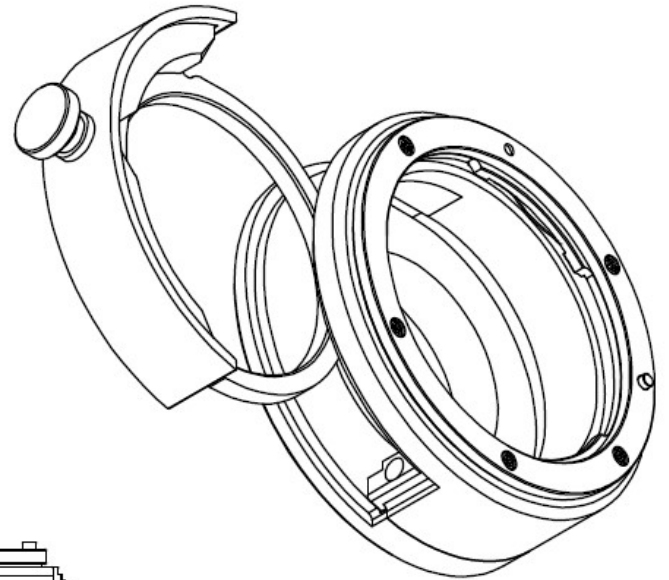

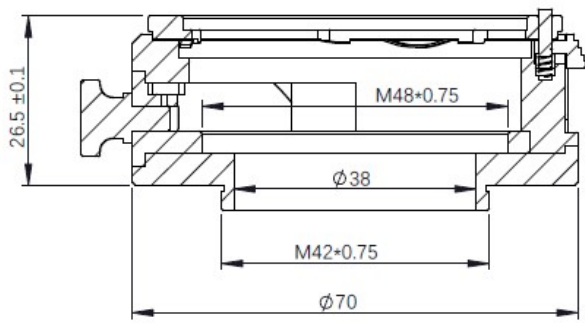

1) With ASI1600/294/183/533:

2) With ASI6200/2600/071:

Mechanical drawing:

单位：毫米

Unit: mm

70mm diameter*26.5mm(thickness)

M42*0.75 male (external) thread (camera side)

M48*0.75 female (internal) thread (filter end)

Suitable for 2-inch astronomical filters

What's in the box?

ZWO filter drawer
for EOS lens
