saxon 0.7x Focal Reducer for FCD100 Triplets

AUD
\$649.00

Product Images

Short Description

Designed to be used with the **saxon 127mm Apochromatic FCD100 Air-Spaced ED Triplet Refractor Telescope** for astrophotography.

The **saxon 0.7x Focal Reducer for FCD100 Triplets** will reduce the focal ratio of the **saxon127mm FCD100 Refractor Telescope** from F/7.5 to F/5.25, providing a wider field of view, brighter images, and shorter exposure times.

No **saxon FCD100** telescope astrophotography setup is complete without the **saxon 0.7x Focal Reducer for FCD100 Triplets**.

Description

Complete your **saxon FCD100 Telescope** astrophotography set up with the **saxon 0.7x Focal Reducer for FCD100 Triplets**.

Pair your **saxon 127mm Apochromatic FCD100 Air-Spaced ED Triplet Refractor Telescope** together with this accessory to reduce the focal ratio from the usual F/7.5 to F/5.25, allowing for photography with a wider field of view, brighter images, and shorter exposure times.

Additionally, this accessory also corrects for field curvature, giving you stars that are sharp across the entire field of view.
