saxon 1026AZ3 SC Refractor Telescope with Steel Tripod

AUD
\$469.00

Product Images

Short Description

For observations of both land and sky, you can count on the **saxon 1026AZ3 SC Refractor Telescope with Steel Tripod** to do the job.

The Saxon 1026AZ3 is the ideal scope for daytime viewing and a bit of low powered night time observation.

This short-tube telescope comes with 102mm multi-coated achromatic objective lens and a focal length of 660mm.

You'll get a host of accessories to complement your viewing session - quality eyepieces, a red-dot finderscope and an erecting prism for terrestrial viewing.

The scope also comes with a sturdy Alt-Azimuth mount with steel tripod which you can manoeuvre up and down and left to right.

No heavy lifting required in transporting the **saxon 1026AZ3 SC Refractor Telescope with Steel Tripod** around - the full assembly weighs just over 5 kg!

Description

The **saxon 1026AZ3 SC Refractor Telescope with Steel Tripod** is the perfect choice of telescope for anyone who wants the ability to study the daytime landscape and the night sky and the world around them.

Quite often this scope is used by people living by the seaside looking at whales and boats and occasional night time viewing as well as the property owner living on the hinterland and enjoying the unique Aussie landscape.

This telescope's aperture of 102mm and focal length of 660mm provides sharp, clear images without the need to constantly adjust your scope. When you're not observing wildlife or landscape from afar, the inclusive accessories will pave the way for you to immerse yourself with views of the Moon and night sky. Budding astrophotographers will appreciate the scope's short focal length which aids in capturing images of deep sky objects.

The compact and portable **saxon 1026AZ3 SC Refractor Telescope with Steel Tripod** features the following:

- 102mm aperture
- 660mm focal length
- 3 eyepieces
- Red-dot finderscope
- 90 degree erecting prism
- Alt-Azimuth AZ3 mount
- Steel tripod with accessory tray
- Photography is possible via an optional T-2 adapter ring.

Perfect for use by observers of all levels.
