Short Description

Beginners will want to start their astronomy journey with the fuss-free **saxon 1149EQ Reflector Telescope**.

This starter telescope comes with a focal length of 900mm and an aperture of 114mm, meaning you'll get bright and detailed views of sky objects. Combined with the accompanying eyepieces, finderscope, erecting eyepiece and equatorial mount, you'll be able to appreciate views of the Moon, planets and bright deep sky objects in no time.

The **saxon 1149EQ Reflector Telescope** is easy to set up and lightweight enough to transport to and from your desired viewing site.

Description

For beginners who have taken their first steps into the world of astronomy, the **saxon 1149EQ Reflector Telescope** makes a perfect companion on your journey.

This telescope has a large aperture of 114mm, making it a good introductory scope for lunar, planetary and bright nebulae viewing. You'll also be able to track celestial objects with the scope's slow motion controls and German Equatorial EQ1 mount.

The **saxon 1149EQ Reflector Telescope** features the following:

- 114mm aperture
- 900mm focal length (F/7.9)
- 4.5" aluminised & overcoated mirror
- 5x24 finderscope
- German Equatorial EQ1 mount
- Smooth rack and pinion focuser
- Super eyepieces
- 1.5x erecting lens for terrestrial use
- Aluminium tripod with accessory tray.

You can upgrade the **saxon 1149EQ Reflector Telescope** by adding on a motor drive. Once aligned, the motor drive will accurately track objects as they move across the sky.

Specifications

WARRANTY INFORMATION	5-Years Limited Warranty
OPTICAL DESIGN	Newtonian Reflector
APERTURE	114mm
LOWEST PRACTICAL POWER	No
HIGHEST PRACTICAL POWER	228x
FOCAL LENGTH	900mm
FOCAL RATIO	F/7.9
EYEPIECES	Super 25, Super 10 and SR4
FINDERSCOPE	5x24
BARLOW LENS	No
DIAGONAL	No
MOUNT TYPE	German Equatorial EQ-1
TRIPOD	Aluminium
OPTICAL TUBE DIMENSIONS	15 cm x 83cm
OPTICAL TUBE WEIGHT	3.90kg
SHIPPING DIMENSIONS	108 x 37 x 24cm3
SHIPPING WEIGHT	11.6kg
