Short Description

The **saxon 5" DeepSky CT Dobsonian Telescope** is the perfect telescope for budding astronomers.

This telescope comes with a focal length of 650mm and an aperture of 130mm which provides bright, sharp views of sky objects.

This scope sits on a stable tabletop base and weighs just under 7 kg, making it easy to carry indoors and outdoors between use. You get two 1.25" eyepieces with your pre-assembled telescope - all you need to do is attach your eyepiece to start observing!

The **saxon 5" DeepSky CT Dobsonian Telescope** makes a great gift for astronomers of all ages and doubles as a great display piece.

NOTE: This is a table top telescope.

Description

The **saxon 5" DeepSky CT Dobsonian Telescope** is an ideal telescope to immerse yourself into the world of astronomy.

Featuring an aperture of 130mm and 650mm focal length, this 5" tabletop Dobsonian-style telescope is excellent for lunar, planetary and deep sky observing.

Weighing a mere 7 kg and with its tube collapses down to 35cm, this lightweight and portable telescope is the perfect travel and outdoor companion. The sleek glitter black diamond design of the telescope also makes it a great display feature in the home or office.

The **saxon 5" DeepSky CT Dobsonian Telescope** is user-friendly, easy to maintain and requires minimal assembly - simply remove it from the box, attach your eyepiece and off you go!
