saxon 9x50 Finderscope with Bracket (90 degree)

AUD
\$219.00

Product Images

Short Description

Find what you're looking for before you observe them!

The **saxon 9x50 Finderscope with Bracket (90 degree)** will help you comfortably pick out targets overhead and align your

telescope to it. Increased magnification means that you will be able to see more and deeper.

Spend some time with the **saxon 9x50 Finderscope with Bracket (90 degree)** so you can spend more time observing.

Description

Locate objects quickly so you can spend more time observing them with the **saxon 9x50 Finderscope with Bracket (90 degree)**.

The 50mm aperture gives a brighter and sharper image, while 9x magnification lets you see more and deeper. Lock on to your targets with the cross-hair reticle and observe away!

The 90 degree viewing angle on **saxon 9x50 Finderscope with Bracket (90 degree)** is especially useful for locating objects that are overhead.

Fits standard dovetail mounting brackets.
