Short Description

The **saxon PSB X1-3 Deluxe Stereo Microscope** is a great combination of affordability and reliability.

Featuring magnifications of 10x and 30x, you'll be able to view refined 3D images of your object thanks to the quality optics in this microscope.

This dependable microscope is suitable to be used both indoors and outdoors.

Description

The saxon PSB X1-3 Deluxe Stereo Microscope features 10x and 30x magnification, 57mm working distance and ac powered illumination. This microscope is suitable for teachers and students, hobbyist, collectors and enthusiasts who wish to study and observe three-dimensional objects.

The microscope head is not only height adjustable but and also rotatable at 360 degrees with a twist at the knob for individual preferences. The 45 degree incline eyepieces also provide optimum comfort during viewing.

To change between magnifications, gently twist the objective lens and adjust until the subject comes into focus. Illuminated with tungsten from the top bulb, this stereo microscope is suitable for schools, dissections, studying of gems, rocks or circuit boards. The metal clips on the stage keep your slides and subjects in place for easier viewing.

For added versatility or optical enhancement, the eyepieces can be removed and replaced with a suitable alternative.
