Short Description

The **saxon SmartOne Stereo Microscope** delivers sharp, 3D views with a versatile magnification range of 20x-80x, making it perfect for education, industry, and hobbies. Featuring ergonomic design, 2x and 4x objectives, multiple eyepieces, and dual-stage

plates, this microscope is ideal for detailed inspections in electronics, gemology, and more.

Description

saxon SmartOne Stereo Microscope 20x-80x

The SmartOne Stereo Microscope is a versatile and high-performing optical instrument, ideal for hobbyists, educators, and professionals in fields such as repairers, electronics, and gemology. Designed for precision and ease of use, this microscope provides sharp, three-dimensional views of specimens for detailed examination.

Key Features:

- **Magnification:** 20x, 30x, 40x, 60x, 80x
- **Binocular Viewing Head:** Provides a comfortable, ergonomic experience during prolonged use.
- **Objectives:** Equipped with 2x and 4x objectives for adjustable focus and clarity.
- **Eyepieces:** Includes 10x, 15x and 20x wide-field eyepieces for enhanced viewing flexibility.
- **Stage:** Comes with a Black/White Contrast Plate and a Frosted Glass Plate for enhanced sample visibility.
- **Illumination:** Bright and even LED illumination for detailed observation.

Applications:

- **Education:** Ideal for home schooling, schools, and universities.
- **Industrial Use:** Ideal for inspecting circuit boards, small parts, and precision engineering.
- **Gemology & Hobbies:** Perfect for jewelry inspection, coin collection, and crafting.

The saxon SmartOne Stereo Microscope combines quality optics, a robust design, and ease of use, making it an excellent choice for both professionals and enthusiasts.
