

## saxon Tube Rings 300mm (Set of 2)

**AUD**  
**\$329.00**

### Product Images

### Short Description

If you're looking to mount or reposition your 300mm reflector telescope, you will need these saxon tube rings.

## Description

---

Made from cast-aluminium, this set of two tube rings comes with quick-release, hinged clamp knobs, as well as the necessary bolts and washers to make setting up an easier job.

The inner diameter of the tube rings is 354mm.

This pair of tube rings will suit the following saxon 300mm reflector telescopes:

- saxon 12" DeepSky Dobsonian Telescope
- saxon 300DS Astrophotography Newtonian Telescope
